EDUCATION

2015 - 2019
SHOOLINI UNIVERSITY

- Bachelor of Technology
- GPA: 7.0 / 10

SKILLS

- HTML5
- CSS3
- Javascript
- React JS
- Redux
- Next JS
- Node JS
- Material UI
- Retool
- DBMS
- AWS- (S3, EC2, RDS)

HOBBIES

- Watching Anime
- Gaming
- Coding Projects
- Photography
- Traveling

PROFILE

Highly skilled MERN Stack Developer with over 2.5 years of experience in developing and maintaining high-quality web applications. Adept at creating responsive and user-friendly interfaces using React, building robust server-side logic with Node.js and Express, and managing databases with MongoDB. Known for optimizing application performance, writing clean and maintainable code, and ensuring high standards of code quality. Proven ability to collaborate effectively in cross-functional teams. Committed to continuous learning and staying current with industry trends and best practices.

WORK EXPERIENCE

Smart Info Care Solutions
Software Developer   2022 - PRESENT

- Developed and maintained full-stack web applications using MongoDB, Express.js, React, and Node.js, ensuring high performance and responsiveness.
- Collaborated with cross-functional teams including designers, product managers, and other developers to create user-centric solutions.
- Implemented RESTful APIs to facilitate communication between the client and server-side applications.
- Optimized components for maximum performance across a vast array of web-capable devices and browsers.
- Integrated third-party services and APIs to enhance application functionality.
- Used Git and GitHub for version control and collaborated on projects with other team members using branching and pull requests.
- Conducted code reviews and provided constructive feedback to ensure code quality and best practices.

AgVa Heathcare   2019 - 2022

Network Engineer

- Designed, implemented, and maintained network infrastructure to ensure high availability and security.
- Configured routers, switches, firewalls, and other networking equipment based on organizational requirements.
- Monitored network performance and implemented optimizations to improve efficiency and reduce downtime.
- Conducted regular network assessments and audits to identify vulnerabilities and ensure compliance with security standards.

PROJECT WORK

- VacanzaStays: An online marketplace for short & long-term homestays. Utilized ReactJS & Node JS. (https://vacanzastays.sicsdev.com/)
- NEXTMED: An medical assistants for the modern professional. Utilized NextJs. (https://www.nextmed.com/login)
- ShapeShopp: An online marketplace where you can buy clothes that fit you perfectly. Utilized ReactJs (https://shapeshopp.com/) and others.
